Start the New Year with Special After School Programs at the Leesburg Library

The "Wednesdays "R" Wonderful @ the Library" group at the Leesburg Public Library is back in session with fun things to do every Wednesday at 3:30 PM.

On January 7, join your friends for an after school cartoon feature with your favorite wild tykes lost on a deserted island without supplies – not even diapers! It's animated fun for everyone in the family.

On January 14, the WAGS reading dogs return to the library for the first of their regularly scheduled monthly visits to listen to kids read. You've never heard of a reading dog? Bring your favorite book, or borrow one from the library, and practice your read-aloud skills on the areas most patient listeners.

On January 21, Joan Wysocki, the "Hat Lady" from the National Epilepsy Foundation, will present a program showing off her many "lids" from faraway places. She'll also talk about the most important function of a hat; protecting your head from injury.

On January 28, library staff will lead an old-fashioned craft program in which kids will make yarn dolls, and hear a down-home folktale.

Registration is recommended for all "Wednesdays "R" Wonderful @ the Library" programs, and it is required for the WAGS reading dogs program. Call the library at (352) 728-9793 to reserve spaces, or for more program information. Daycare groups are welcome, as space permits.
